

## Final Agenda

# Workshop on Standby Power

August 26, 2002  
Clark Kerr Conference Center, Building 14, Room 203  
2601 Warring Street  
Berkeley, California

Time	Activity
8:00	Breakfast available
8:30	Welcome by Arthur Rosenfeld (CEC), “Why did the CEC propose this workshop?”
8:45	Goal of Workshop: Jim McMahon (LBNL) <ol style="list-style-type: none"><li>1. Should the CEC further investigate standby power (and other low power modes)?</li><li>2. What <i>measurement</i> activities should the CEC initiate?</li><li>3. What <i>research</i> should the CEC initiate?</li><li>4. What <i>programs</i> should the CEC initiate?</li></ol>
9:00	Terminology of standby power and low power modes: Bruce Nordman (LBNL)
9:15	Survey of Literature about standby and other low power modes: Alan Meier (LBNL) Measurements, Programs, Research, California energy use
10:15	Brief discussion
10: 30	Coffee break
10:45	Discussion: should CEC further investigate this topic?: Jim McMahon
12:30	Lunch
1:30	Example of current CEC-sponsored research related to standby: Standard User Interfaces for Power Management Bruce Nordman The critical role of power supplies in low power modes Travis Reeder (Ecos Consulting)
1:55	Discussion of potential activities related to <i>measurement</i> and <i>research</i> : Jim McMahon
3:15	Break
3:30	Discussion of potential <i>programs</i> : Jim McMahon
4:45	Summary remarks: Don Aumann (PIER) & John Wilson (CEC)
5:00	Afternoon session ends
6:00	Working dinner at Garibaldi's (5356 College Ave., Oakland) Tel. 510-595-4000 Topic: “Translating the discussion remarks into a work plan”
